## Easy Apache v3.24.0

[Help](#) [Upload Profile](#) [About Profiles](#) [Build History](#) [Build Log Manager](#) [Archives/ Backups](#)

Before using EasyApache please be sure to read over the documentation. To avoid losing custom modifications to your apache configuration, you will need to move them to include files that the new configuration system uses. For more specific information on includes please visit this page.

### Previously Saved Configuration

| Profile                                      | Summary  | Description  | Actions |
|--|--|--|---------|
| <input checked="" type="radio"/> **DEFAULT** | Apache 2.4<br>PHP 5.4<br><a href="#">show info</a> | This option loads the last saved configuration. If the configuration is missing, then default values will be provided. |         |
